Who is This Vendor Assessment For?

NelsonHall's Process Discovery & Mining Technology Evaluation, provides an assessment of ABBYY's Timeline process discovery & mining platform designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of Process Discovery & Mining platforms and identifying vendor suitability for RFPs
- Process reengineering and RPA and intelligent automation center of excellence personnel evaluating process discovery & mining platform capability
- Vendor marketing, sales, and business managers looking to benchmark their platforms against their peers
- Financial analysts and investors covering intelligent automation and process discovery & mining platforms.

Key Findings & Highlights

ABBYY Timeline is an all-in-one platform for process mining that is aimed at the business user that offers:

- Data extraction, transformation, and loading
- Process analysis
- Process improvement
- Process monitoring
- Corrective action enablement.

ABBYY Timeline offers a platform that is clearly designed with the business user in mind — with its no-code data transformations and custom KPI enable business users to perform frictionless analyses. Additionally, its more than 20 built-in problem-centric analyses means users can dig in right away, without needing to build anything themselves.

ABBYY Timeline allows users to extract data from transactional applications (ERP, CRM, HCM, EHR, HIS, and Databases/EDW/Marts). And can be coupled with ABBYY's Content Intelligence solutions to include information from unstructured and semi-structured document types found in case-based business processes.

The company is now developing industry-specific solutions and is currently targeting financial services, insurance, healthcare, and transportation and logistics.
