6. Strategy
7. Strengths & Challenges
8. Outlook

## Who is This Vendor Assessment For?

---

NelsonHall's cognitive & self-healing IT infrastructure management services profile on Coforge is a comprehensive assessment of Coforge's offerings and capabilities, designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of digital services and cognitive & self-healing IT infrastructure management services and identifying vendor suitability for RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the IT services sector.

## Key Findings & Highlights

---

This NelsonHall vendor assessment analyzes Coforge's offerings and capabilities in cognitive & self-healing IT infrastructure management services.

Coforge supports cognitive and self-healing IT infrastructure management services through its IP, accelerators, and ecosystem partnerships in a vendor and technology agnostic model. Its offerings cut across all aspects of client requirements, utilizing AI, automation, and RPA. Coforge centers its transformation and experience capability across four key pillars, including hyper-automation, multi-cloud, empowered edge, and multi-experience to bring in engineering convergence.

Coforge deploys multiple IP and accelerators, including its AI-Ops platform, integral for all aspects of automation, including DevSecOps. Its automation factory and offerings led approach helps transform and enable the development and implementation of uses cases. Its innovation centers in India, Europe, and the U.S. help clients research, incubate, and deploy emerging technologies in the automation landscape.
