## Who Is This Vendor Assessment For?

NelsonHall's Managed Security Services profile on Cognizant is a comprehensive assessment of Cognizant's offerings and capabilities, designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of managed security services and identifying vendor suitability for security services RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the IT services sector.

## Key Findings & Highlights

This NelsonHall vendor assessment analyzes Cognizant's offerings and capabilities in managed security services.

Headquartered in Teaneck, NJ, Cognizant generated revenues of \$10.26bn in CY 2014, a growth of 16.1%, nearly 15% of which was organic growth.

Cognizant introduced its managed security service/SaaS model for security at the beginning of 2014. It was already offering a number of managed security services including:

- Application security services such as application security assessment
- Security information and event management bundled in infrastructure services.

## Scope of the Report

The report provides a comprehensive and objective analysis of Cognizant's managed security services offerings and capabilities, and market and financial strengths, including:

- Identification of the company's strategy, emphasis, and new developments
- Analysis of the company's strengths, weaknesses, and outlook
- Revenue estimates
- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts
- Analysis of the company's offerings and key service components
- Analysis of the company's delivery organization including the location of delivery locations.
