 - Supply Chain Management
 - Procurement

Who is This Vendor Assessment For?

NelsonHall's "Global FAO, supply chain, and procurement Market Forecast: 2022-2026" report is a comprehensive market forecast report designed for:

- Sourcing managers monitoring the FAO, supply chain, and procurement BPS industry and seeking to identify leading vendors for shortlists and RFPs
- Executives seeking assistance in identifying levels of FAO, supply chain, and procurement BPS vendor presence by service line and geography
- Vendor marketing, sales, and business managers looking to identify market sizes and growth rates and their market share relative to their peers
- Financial analysts and investors specializing in the support services sector.

Key Findings & Highlights

The full breakdown of NelsonHall's BPS market forecast and vendor market shares across 81 BPS service lines, 39 geographies, and 39 industry sectors can be obtained via [NelsonHall's Self-Service Forecast Tool](#).

This self-service tool aims to assist executives in accessing the precise combinations of market size, growth, and vendor share information they require rapidly and cost-effectively, supporting more informed decision-making.

In particular, the "[NelsonHall Self-Service Market Forecasting tool](#)" enables executives to tailor the scope of any market forecast or vendor market share download by selecting one or multiple service lines, geographies, and industry sectors and downloading market size, growth, and vendor share information against these parameters. Furthermore, decision-makers are no longer inconvenienced by delays in the manual production of customized reports on their behalf.

The tool now covers not just business process services but has subsequently been expanded to support 13 IT outsourcing service lines, also by geography and industry sector.

Scope of the Report

The report provides a forecast for the FAO outsourcing market overall and by geography and service line. It covers the following:

- The FAO BPS market size for 2021 and the forecast through 2022 to 2026
- The FAO, supply chain, and procurement market sizes and forecasts for North America
- The FAO, supply chain, and procurement services market sizes and forecasts by service line
- The FAO, supply chain, and procurement BPS market sizes and forecasts by combinations of service line and geography
- Vendor revenue shares for 2021 by service line and geography.

About The Author

John is CEO of NelsonHall, the leading business process services (BPS) and IT services (ITS) research and analysis firm, and is widely regarded as one of the world's leading authorities on achieving business transformation through the application of BPS.

John is well-known around the world for his detailed analytical approach to research, and his pragmatic style. He founded NelsonHall in 1998 on the principle that genuine market insight can only be derived from a bedrock of hard, empirical facts drawn from original market research, and this philosophy persists to this day, making NelsonHall one of the most highly valued global research firms.
