Who is This Vendor Assessment For?

NelsonHall's "Global ITS Market Forecast: 2022-2026" report is a comprehensive market forecast report designed for:

- Sourcing managers monitoring the IT services (ITS) industry, and identifying leading vendors for shortlists and RFPs
- Executives seeking assistance in identifying levels of ITS vendor presence by service line and geography
- Vendor marketing, sales and business managers looking to identify market sizes and growth rates and their market share relative to their peers
- Financial analysts and investors specializing in the support services sector.

Scope of the Report

The report provides a forecast for the global IT services outsourcing market overall and by geography and by service line. It covers the following:

- The IT services market size for 2022 and the forecast for the business process services market through 2022 to 2026
- The business process services market size and forecast for North America, specifically covering the U.S. and Canada; EMEA, specifically covering U.K., France, Germany, and Italy; Asia Pacific: and Latin America.

About The Author

Dominique Raviart is the IT Services Practice Director at NelsonHall, with global responsibility for IT Services research programs.

Dominique covers IT Services research in the areas of Software Testing/QA, Big Data and Analytics Services, Salesforce services, and IoT Services. Dominique has been part of NelsonHall's IT Services analyst team since 2007, providing comprehensive and insightful coverage of IT services markets in the world. In particular, he is widely known for his extensive knowledge and coverage of software testing, having examined recently digital testing and DevOps/continuous testing. Dominique assists both buy-side and vendor organizations in assessing opportunities and supplier capability across IT service lines.
