## Who Is This Vendor Assessment For?

NelsonHall's Digital Banking Services Vendor Assessment for Infostretch is a comprehensive assessment of Infostretch's Digital Banking Services offerings and capabilities designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of capital market process outsourcing and identifying vendor suitability for Digital Banking Services RFPs
- Vendor marketing, sales and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the support services sector.

## Key Findings & Highlights

Infostretch was founded in 2004 as a vendor of software testing services. Today, Infostretch provide digital engineering services for clients. Primarily, they work on solutions that create a customized personal experience for customers. They use a portfolio of proprietary frameworks and tools to support the enablement of customized user experiences.

The first client Infostretch won was a major U.S. headquartered bank that wanted to create a mobile banking capability. Over time Infostretch has expanded the range of services supporting mobile enablement including CX, security, cross channel coordination, STP, and service virtualization.

## Scope of the Report

The report provides a comprehensive and objective analysis of Digital Banking services offerings, capabilities, and market and financial strength, including:

- Identification of the company's strategy, emphases and new developments
- Analysis of the company's strengths, weaknesses and outlook
