Who Is This Vendor Assessment For?

NelsonHall's Managed Security Services profile on Infosys is a comprehensive assessment of Infosys' offerings and capabilities designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of managed security services and identifying vendor suitability for security services RFPs

- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers

- Financial analysts and investors specializing in the IT services sector.

Key Findings & Highlights

This NelsonHall vendor assessment analyzes Infosys' offerings and capabilities in managed security services.

Headquartered in Bangalore, Infosys was founded in 1981 in Pune. Infosys' managed security services business resides in its infrastructure management services line.

Infosys' strategy continues to be both:

- 'Renew the core business': for which it targets increasing the use of newer technologies such as automation, robotics and AI in BPO, application and infrastructure services, and IoT and machine learning

- 'Innovate into new business': for which it targets new offerings and has a tech start-up investment fund.

Infrastructure security services mainly follow the 'renew the core business' strategy, while cybersecurity is an aspect of the 'innovate into new business ' strategy, particularly cybersecurity for IoT.

Scope of the Report

The report provides a comprehensive and objective analysis of Infosys' managed security services offerings and capabilities, and market and financial strengths, including:

- Identification of the company's strategy, emphasis, and new developments

- Analysis of the company's strengths, weaknesses, and outlook

- Revenue estimates

- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts

- Analysis of the company's offerings and key service components

- Analysis of the company's delivery organization including the location of delivery locations.
