Who Is This Vendor Assessment For?

NelsonHall's Digital Transformation case studies on NIIT Technologies provide examples of the organization's ability to transform a client's IT operations to capture digital opportunities. The case studies are designed for:

• Sourcing managers monitoring the capabilities of existing suppliers of IT services and identifying vendor suitability for digital transformation projects

• Vendor marketing, sales and business managers looking to benchmark themselves against their peers

• Financial analysts and investors specializing in the IT services industries and willing to understand model and growth opportunities around digital transformation.

Key Findings & Highlights

This report includes two digital case studies: one with Carey International and one with the Government of India.
