Who is This Vendor Assessment For?

NelsonHall's "Healthcare Operational Analytics Services" report is a comprehensive market assessment report designed for:

- Sourcing managers investigating sourcing developments within the healthcare analytics market
- Vendor marketing, sales and business managers developing strategies to target operational analytics opportunities within healthcare payers & providers
- Financial analysts and investors specializing in the business services sector, including analytics services.

Key Findings & Highlights

- NTT DATA's healthcare operational analytics services capabilities leverage both payer and provider expertise and are well-positioned to implement value-based care initiatives on behalf of clients
- At the corporate level, NTT DATA has prioritized the U.S. healthcare practice for investment and growth
- NTT DATA's expertise includes a wide variety of commercial sector claims processing platforms, including the widely used TriZetto Facets and QNXT platforms and the less frequently used Oracle OHI, DST AMISYS, HealthEdge HealthRules, and Health Trio platforms. This claims expertise will prove valuable where NTT DATA seeks to carve out BPaaS contracts in the claims function.
