## Who is this Vendor Assessment for?

---

NelsonHall's vendor profile on Capgemini is a comprehensive assessment of Capgemini's SAP Cloud Migration offerings and capabilities, designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of IT services and identifying vendor suitability for SAP Cloud Migration services
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the IT services sector.

## Key Findings & Highlights

---

Capgemini advocates that cloud-hosted applications meet organizations' need for digital and flexible applications, relying on standard core processes and security. The company highlights its sustainability approach to cloud projects.

Capgemini puts its SAP cloud migration services in the context of a broader transformation of client IT applications to the Renewable Enterprise. This transformation involves assessing legacy systems to identify opportunities from a "bottom-up" analysis following the reference model and looking to add and align with the CXO's business priorities, which might include agility, sustainability, and embracing change as required.

Capgemini is capitalizing on current market trends for security and sustainability (ESG) by offering and incorporating them into its end-to-end SAP cloud services. It is starting investigation into the industrial metaverse, which will also provide an edge in evolving commercial developments.

Buyers will be interested in this report's discussion of the specific solutions developed by Capgemini to promote sustainability in supply chains and ensure the security of SAP systems.
