Who is this Vendor Assessment for?

NelsonHall's supply chain transformation for sustainability profile on Accenture is a comprehensive assessment of Accenture's offerings and capabilities, designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of supply chain services with a focus on sustainability services and identifying vendor suitability for supply chain services with a focus on sustainability RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in supply chain services with a focus on the sustainability sector.

Key Findings & Highlights

Accenture offers its supply chain services under the "supply chain network" umbrella as part of consulting and strategic managed services. Accenture's supply chain offerings are broadly categorized into:

- Supply chain consulting and strategy - delivers supply chain strategy, operating model and future strategy
- Autonomous supply chain networks - include technology-enabled solutions and platforms
- Sustainable value chain - embeds sustainability within supply chain services
- Strategic managed services - manages supply chain operations and innovation.

Accenture has ~1,600 global clients across 19 industries and a network of ~50,000 professionals supporting supply chain offerings. The current focus has been embedding sustainability into supply chain services and assisting clients across the supply chain and sustainability at scale.
