## Who Is This Vendor Assessment For?

NelsonHall's Internet of Things profile on CGI is a comprehensive assessment of CGI's offerings and capabilities, designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of IoT and identifying vendor suitability for security services RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the IT services sector.

## Key Findings & Highlights

This NelsonHall vendor assessment analyzes CGI's offerings and capabilities in IoT.

CGI is in the process of building scalable and integrated prepackaged vertical-based IoT offerings, in addition to enhancing its capabilities around its IoT/M2M platform, both for new client acquisition and as a process for reducing cost for existing clients.

## Scope of the Report

The report provides a comprehensive and objective analysis of CGI's managed security services offerings and capabilities, and market and financial strengths, including:

- Identification of the company's strategy, emphasis, and new developments
- Analysis of the company's strengths, weaknesses, and outlook
- Revenue estimates
- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts
- Analysis of the company's offerings and key service components
- Analysis of the company's delivery organization including the location of delivery locations.
