Who Is This Vendor Assessment For?

NelsonHall's Internet of Things profile on HCL Technologies is a comprehensive assessment of HCL Technologies' offerings and capabilities, designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of IoT and identifying vendor suitability for security services RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the IT services sector.

Key Findings & Highlights

This NelsonHall vendor assessment analyzes HCL Technologies' offerings and capabilities in IoT.

In July 2015, HCL acquired a number of Trygstad Technical Services' assets. Trygstad's focus is on segments of emerging technologies such as the Internet of Things (IoT), embedded systems, intelligent systems, and core engineering including operating systems.

Scope of the Report

The report provides a comprehensive and objective analysis of HCL Technologies' managed security services offerings and capabilities, and market and financial strengths, including:

- Identification of the company's strategy, emphasis, and new developments
- Analysis of the company's strengths, weaknesses, and outlook
- Revenue estimates
- Analysis of the profile of the company's customer base including the company's targeting strategy and examples of current contracts
- Analysis of the company's offerings and key service components
- Analysis of the company's delivery organization including the location of delivery locations.
