4. Delivery Capability
5. Target Markets
6. Strategy
7. Strengths & Challenges
8. Outlook

Who is This Vendor Assessment For?

NelsonHall's cognitive & self-healing IT infrastructure management services profile on UST is a comprehensive assessment UST's offerings and capabilities, designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of digital services and cognitive & self-healing IT infrastructure management services and identifying vendor suitability for RFPs
- Vendor marketing, sales, and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the IT services sector.

Key Findings & Highlights

This NelsonHall vendor assessment analyzes UST's offerings and capabilities in cognitive & self-healing IT infrastructure management services.

UST provides cognitive and self-healing IT infrastructure management services through its global automation service portfolio, which includes UST SmartOps intelligent process automation platform. It takes a consulting-led approach to automation utilizing its UST SmartStart framework (available in Microsoft Azure & Oracle Cloud Marketplaces). UST's automation consultants identify automation candidates, and through an agile approach, define an enterprise automation roadmap and drive automation change management.
