Who Is This Vendor Assessment For?

NelsonHall's Intelligent Automation Services in Banking Vendor Assessment for Virtusa is a comprehensive assessment of Virtusa's Intelligent Automation in Banking offerings and capabilities designed for:

- Sourcing managers monitoring the capabilities of existing suppliers of intelligent automation processes and identifying vendor suitability for intelligent automation services RFPs
- Vendor marketing, sales and business managers looking to benchmark themselves against their peers
- Financial analysts and investors specializing in the support services sector.

Key Findings & Highlights

Virtusa has been delivering automation services to banks since 2015. In 2015 Virtusa acquired Polaris Consulting Services. Virtusa brought automation capabilities and Polaris brought BFS clients to the combined entity. Today the largest single vertical for automation services at Virtusa is the BFS vertical. Its initial BFS clients were global banks. Its initial services were consulting services focused on use case development and product selection. Soon after, it added integration services as it established partnerships with the largest RPA vendors.

In the past three years, Virtusa has added AI services to its automation offerings. Virtusa has been working with regional clients on more developmental projects and following a move fast and fail fast approach to process automation.

Scope of the Report

The report provides a comprehensive and objective analysis of intelligent automation services offerings, capabilities, and market and financial strength, including:

- Identification of the company's strategy, emphases and new developments
- Analysis of the company's strengths, weaknesses and outlook
